A Christmas Seal is but a mite
When view'd as only one,
But as an army it can fight
With triumphs match'd by none.
Combining with its million mates
They utilize their wealth
To open wide a thousand gates
That lead thro' Hope to Health.

The two children are singing a hymn of thanks for the protection of the Christmas Seal in the past and a plea for continued protection. Childhood comes once in a lifetime. Its protection from illness is urgently needed now.

“The tuberculin test is an important measure for the protection of school employees themselves as well as the children. It means the detection of the disease at a time when it can be successfully treated, thus cutting down the period of absence from work and possible permanent handicap.”

"The three most important diagnostic factors in tuberculosis:

1. The positive tuberculin test.
2. X-ray findings.
3. The clinician.

The clinician must evaluate the first two items with his other findings. The clinician alone can make the diagnosis."

Dear Boys and Girls:

I want you to have my "milk picture" to remind you of the simple rules to follow for good health.

Fresh Air... All the time.
 Wholesome Food... Especially fresh fruit and vegetables -
 Eat slowly.

Sleep... Plenty of it - windows open.

Teeth... Brush them twice a day.

Baths... At least two a week.

Water... Several glasses a day.

Remember what "Creamo" taught you about drinking three glasses of milk a day.

I hope you are getting on well with your studies.

It always pleases me to get letters from my little friends.

Yours For Good Health,
 Chew Chew
